## AVOCET AVIATION SERVICES: NEW OWNERSHIP, VETERAN MRO TEAM, A COMMITMENT TO HEAVY MAINTENANCE GROWTH AT SFB AND LAL

Florida-based FAA 145 MRO targets heavy check service expansion and passenger-to-freighter (P2F) conversions under new leadership.

**SANFORD, FL** — Avocet Aviation Services, the FAA 145 certificated MRO at Orlando-Sanford (SFB) and Lakeland Linder (LAL), was acquired by an investment group led by Bob Stockard of Mill Hill Capital in November 2025. A new executive team, with extensive MRO, P2F, and supply chain experience, is now in place and has already produced measurable improvements in on-time aircraft delivery, safety, and quality since taking the helm.

### OPERATOR IMPACT

- Heavy check capacity expansion at SFB and LAL with additional hangar positions planned at both locations
- P2F conversion capability for narrowbody platforms
- Customer specific program management team for each maintenance visit
- Dedicated tear down facility

### FACILITIES

**SFB** — Primary heavy maintenance base. Strong labor pool. Direct access to the Central and Southern Florida aviation corridor. Capabilities supporting induction, inspection, parts recovery, and end-of-life asset processing.

**LAL** — Second maintenance base in Lakeland. Supports parallel check capacity and full aircraft painting. Future Center of Excellence for regional aircraft maintenance.

### CAPABILITIES

- Heavy airframe checks: all Boeing and Airbus narrowbody and widebody families
- P2F narrowbody conversions
- Structural inspection, repair & modification
- Lessor redelivery, painting & interior reconfiguration
- AOG and Work Away services
